- // Comfortable concave triggers
- // Autoclavable pipette holder
- // 'Low battery' light
- // Suitable for all types of pipettes 1–100ml
- // CE marked
- // 1 year warranty

Powerpette® Turbo, Pipette Controller

One of the lightest pipette controllers you can buy, the Powerpette® Turbo offers a powerful performance in a streamlined pistol grip shape. The extra powerful yet quiet motor speeds up large volume pipetting, filling 25ml pipettes in less than 3 seconds. The unit fits the hand perfectly with the pipette holder at an angle ideal for use within a laminar flow or biological safety cabinet.

The bench stand supplied enables the Powerpette® Turbo to be parked in an upright position or with a pipette fitted.

A rugged wall bracket (266-138) is also available as an accessory. It is supplied complete with fixing screws and adhesive pad for wall, shelf or safety cabinet fixing.
